SUMMARY

• Junior Full Stack Web Developer.
• Beginner UX/UI Designer.
• Certified Scrum Master.

+2 years of self-taught experience, +3 months of volunteer work and +2 months of professional internships.

Willing to learn any necessary technology and committed to delivering work within the established timeline.

Able to work under pressure while fostering a healthy and positive environment.

EXPERIENCE

ALTIA
2024   Full Stack Developer

Engineered and deployed using JavaScript and Java to integrate a RESTful API and WebSockets.

Implemented modern templates and components in Magnolia CMS using UX/UI principles, significantly improving usability, accessibility and loading speed.

By leveraging the Scrum methodology for Spring development, I successfully delivered functionalities throughout my 2-month internship.
